# PROJECT

## • RESTAURANT MANAGEMENT

SYSTEM Main objective builds the system this is to provide ordering and reservation service by online to the customer. ... The main point of developing this system is to help restaurant administrator manage the restaurant business and help customer for online ordering and reserve table.

## • SCHOOL MANAGEMENT SYSTEM

This project will handle whole the activities of the school. SMS has most of the facilities that a modern school requires to computerize its day-to-day jobs. It provides facilities to keep the records of student, fees, teaching and non-teaching staff with all their required details along with all required transaction handling.

## ▪ FOOD ORDER WEBSITE

The following HTML code describes the structure of the webpage. First of all it has an header tag to display the name of the company which is "Online FoodShop". The navigation bar contains tabs of "Home", "About", "Menu" and "ContactUs". The navigation bar also consists of the logo of the company followed by the background image with some more details of the "Online FoodShop" along with the featured products.
